October 19 , 2020

9:30 am – 2:30 pm

Location: Heliopolis University, Faculty of Business & Economics, Ibn Rushd Hall.

Organized by

ISIS for Food Industries

Sponsored by

European Union

Chair

MR. Helmy Abouleish, CEO, ISIS for Food Industries.

Co-Chair

Prof. Omar Ramzy, The Dean of Faculty of Business and Economics, Heliopolis University for Sustainable Development.

Affordable Resources for Egypt's Industrial Growth (RIndustry) is an EU-funded project implemented by The British University in Egypt (BUE), New and Renewable Energy Authority (NREA), Regional Center for Renewable Energy and Energy Efficiency (RCREEE), Central Metallurgical Research and Development Institute (CMRDI), and ISIS for Food Industries.

The objective of RIndustry is to change the culture of resource utilization in Egypt's industry for enhanced economics and competition. Energy production, water treatment and rationalization, and energy efficiency are targeted for this mission, where R&D-based, innovative and sustainable solutions are employed.
